Attention: Georgia Producers Omni Lowering Rates in Many Territories! – Effective 01/21/11

Effective **01/21/11** for new business and **02/25/11** for renewals, Omni will be lowering rates in many territories in the state!! Areas in Albany, Bainbridge, Brunswick, Valdosta, and Waycross will see the biggest decrease in liability rates. If you haven't quoted Omni recently, **NOW** is the time to do so!

To gain access to our new rates, simply quote directly on our company website or bridge into our system from your comparative rater. The rates in Accu-Auto will be updated within the next week.

In addition, we are also **NOW** offering a:

- **Renewal Discount** for customers who have had no Omni claims within the last 35 months.
- **Agency Client Discount** for pre-approved book rolls. If you're interested in taking advantage of this opportunity, contact your Marketing Rep today.

Please keep in mind other highlights of our Georgia auto program which include the following:

- **In-Agency Transfer Discount** – If you are quoting another carrier's renewal policy originally written by your agency, you can apply an additional discount to the rate on top of the "Prior Insurance Discount". This will allow you to provide a rate that is significantly lower than your competitors can provide with Omni!
- **Reinstatement with a lapse up to 30 days after cancellation** – Insureds retain their discounts up to 30 days without having to rewrite their policy!
- **Down-payments as low as 11% on six month policies** - Insureds can pay as little as 11% down on six month policies (5.5% on annual policies) with **NO** restrictions, making Omni even more affordable for your insureds!
- **Assigned Underwriters** - We assign an Underwriter to your agency to assist you with all new business submission issues, ensuring a quality customer service experience.
- **Quick On-line Endorsements** - Make policy endorsements on-line immediately after issuing a policy and view your real-time commission statements daily!
